

REQUEST FOR PROPOSALS

ADDENDUM # 1 Questions and Clarifications

Website Redesign RFP #NF2018-01

TO: Prospective Proposers
FROM: Martha Howarter, Director of Federal Programs
DATE: March 16, 2018
SUBJECT: Addendum No. 1 – Questions and Clarifications

The following is included as part of Addendum No.1 and supersedes the language/requirements set forth in the original "Request for Proposals".

ADDENDUM # 1 – Questions and Clarifications

#	Questions submitted or asked	Response from GPMTD
1	What project roles do you consider key personnel for this project?	<i>Project manager; developer; IT.</i>
2	Is there a directory of DBE certified businesses? We can't find it on the website.	http://www.idot.illinois.gov/doing-business/certifications/disadvantaged-business-enterprise-certification/il-ucp-directory/index
3	We are an IL-based company with some remote employees outside of the US. Are there any restrictions on their ability to contribute to the project?	<i>Yes. Will need public IP to allow access through firewall.</i>
4	Is there a target budget or range we can scale our solution to?	<i>Not disclosed. Proposed costs with any options should be submitted based on scope of work requirements.</i>
5	Is your project budget posted? Where can it be found? If it is not posted could you please provide a budget range you are anticipating spending on this project?	<i>Specific line item is not posted. Refer to Response #4</i>
6	Can you please provide me the scale to which proposals will be evaluated on?	<i>Qualifications/Reputation/Financial Responsibility – 30% Technical Proposal/Project Approach – 30% Responsiveness to GPMTD Functional Requirements – 20% Price – 20%</i>
7	There are no weightage points assigned to the various evaluation criteria. Please provide the weightage for the evaluation criteria?	<i>Refer to Response #6.</i>

#	Questions submitted or asked	Response from GPMTD
8	What key factors are important to you that may not be clearly outlined in your proposal?	<i>Key points are listed in Scope of Work.</i>
9	Beyond the RFP, what are your overall goals with the website project?	<i>Flexibility to expand, as needed. Easy in updating and maintaining content. An effective and efficient user-friendly website.</i>
10	What is your greatest anticipated challenge for completing this project with a high level of success? How will success be measured?	<i>GPMTD greatest challenge will be completing the project in a relatively aggressive time frame. Success will be measured by pre-launch feedback from Board of Trustees and Management; the overall success of the website launch; page views post-launch.</i>
11	Is GPMTD looking to improve upon overall rider engagement?	<i>Yes.</i>
12	What was your annual website spend in the last 3 years for your current website?	<i>Does not apply. Self-Hosted and Self-maintained by Staff.</i>
13	How open is GPMTD to allowing the vendor to host? Allowing the client to host will always cost more on an annual basis due to the additional time required to support the CMS on the client server. Is there any flexibility to have the vendor host?	<i>Web-site will be self-hosted. No Flexibility.</i>
14	Are we able to know why self-hosting by GPMTD is required?	<i>This is a Management decision.</i>
15	How many editorial or content writer users will need training?	<i>Three to Six GPMTD Staff.</i>
16	How many staff will need to be trained to use the new content management system?	<i>Refer to Response #15.</i>
17	User testing is requested—how many staff? What do they envision for this?	<i>Refer to Response #15. Full test of website functionality is required before site launch.</i>
18	How many people will need to be trained to administer the website after launch?	<i>Refer to Response #15.</i>
19	How many user types will be specified on the public website? (admin, editor, writer, etc)	<i>Refer to Response #15.</i>
20	How many user types will be needed for the Intranet?	<i>Two to Three GPMTD Staff.</i>
21	What is your anticipated delivery date when you would like the website to be completed?	<i>Mid to late summer (July-August 2018).</i>

#	Questions submitted or asked	Response from GPMTD
22	Is there a target launch date? Is it tied to an event or some sort of deadline such as a fiscal year or event?	<i>Refer to Response #21. Contract with selected Vendor executed by June 30, 2018.</i>
23	Are you open to receiving additional information within the proposal as to suggested functionality that may be outside of your current scope outlined in the RFP?	<i>Yes. Additional Information should be included as Options. Options should not be included in the Price being proposed.</i>
24	We did not see GPMTD being on the list for Google Transit. https://maps.google.com/landing/transit/cities/index.html Is this something that the District can register for and enter routes, pricing, etc into Google Transit to save on costs? http://www.google.com/transit . Or, will GPMTD need to have the vendor enter all of this information?	<i>GPMTD is listed under "ridecitylink-il" in Google Maps.</i>
25	Does the agency want to employ a user-centered design approach, which would involve research into potential site users and their preferences? This is potentially a more time-consuming approach but would yield better design results. Put another way, does the budget support an in-depth design process, or would the agency be happy with an approach that simply follows design best-practices, in the interest of time and budget?	<i>Proposer should submit proposal based on scope of work requirements using best-practices. User-centered design approach should be listed and quoted as options.</i>
26	What level of pre-project planning and interaction will be required from the successful vendor, to ensure that GPMTD achieves its vision? Would learning more about our options be of interest?	<i>High level of coordination planning, and interaction with GPMTD staff is required. Any Options should be disclosed as options and associated cost provided.</i>
27	How many years-worth of agendas and minutes will need to be migrated as part of this project, if any?	<i>Only the current agendas and minutes. (i.e. If the website launches on August 1, 2018, the minutes from the July 2018 board meeting and the agenda for the August 2018 board meeting (when available) will need to be posted on the website.)</i>
28	Should a downloadable mobile App be included?	<i>Downloadable mobile App should not be included at this time.</i>
29	Roughly how many residents in terms of the population are serviced by GPMTD?	<i>Approximately 200,000 in the Tri-County Area.</i>

#	Questions submitted or asked	Response from GPMTD
30	Is there a preference for or against sticking with Drupal as the CMS?	<i>GPMTD does not have a preference. Must be Linux compatible.</i>
31	If you are sticking with Drupal, is there a D7 or D8 preference?	<i>Must be most recent version.</i>
32	Can you confirm that core and contributed modules are all unmodified at the code level?	<i>Unable to confirm core and contributed modules are all unmodified at the code level.</i>
33	Please provide a list of modules in use on the site.	<i>Refer to ATTACHMENT A of this Addendum.</i>
34	Please describe the functionality of any custom modules in use on the site.	<i>The custom modules (Chaos Tools) appear to be traffic counting on the current website.</i>
35	How many content types are currently in use on the site?	<i>Nine (9).</i>
36	How many views?	<i>62,100 website visits in last 6 months.</i>
37	How many nodes?	<i>Not available under Drupal version.</i>
38	Are we correct in assuming that the current search is Drupal search? Is that sufficient for the new site, or do you want to implement SOLR for advanced functionality?	<i>Yes. Basic search functionality will suffice for the new website.</i>
39	Are we correct in understanding that your route information is already on Google Maps?	<i>Yes. Refer to Response #24.</i>
40	Please describe all integrations with other sites or data sources more complex than an iFrame or embed code.	<i>None.</i>
41	Is SSO in use?	<i>No.</i>
42	Is WCAG 2.0 AA the accessibility target?	<i>Yes.</i>
43	Can you please send your current server specs for hosting?	<i>The server specs are: HHPE ProLiant DL160 Gen 9 Xeon E5-2603 1.7 GHz 4-cores 8GB Memory 500GB HDD x4 – RAID 5</i>
44	How important is website security? Are there specific security standards that the new website must meet?	<i>Highly important. Must meet industry standards for website.</i>

#	Questions submitted or asked	Response from GPMTD
45	What do visitors tell you they like about your site? What do visitors not like about your site?	<p><i>The Schedules & Routes page is consistently the most visited page on the website.</i></p> <p><i>GPMTD has received complaints that the site is not easy to navigate for users and information is hard to find.</i></p> <p><i>From a front-end user standpoint, it is not the easiest website to update/maintain.</i></p>
46	Will all of the blog articles from The Connection Blog need to be migrated to the new website?	<p><i>Yes</i></p>
47	How is your Mapping conducted? Is this something that can be iframed into the new website or will it have to be re-built in the new website?	<p><i>Mapping on the Google Maps blog post was done via screenshots.</i></p> <p><i>GPMTD does not have a mapping system feature on its current website and would like it to be a feature included in the website redesign.</i></p>
48	List three other transit websites that you have seen that you really like. Why do you like them?	<p><i>Ben Franklin Transit:</i> https://www.bft.org</p> <p><i>TriMet:</i> https://trimet.org/ride/stop_select_form.html</p> <p><i>RFTA:</i> https://www.rfta.com/</p> <p><i>Like the drop down menus at the top; trip planners; overall simple designs</i></p>
49	Who are your comparative agencies that you would compare your agency with. For example: would it be other transit websites in your state? Please list your top three comparatives.	<p><i>Connect Transit (Bloomington/Normal):</i> https://www.connect-transit.com/</p> <p><i>Champaign-Urbana Mass Transit District:</i> https://www.cumtd.com/</p> <p><i>Springfield Mass Transit District:</i> http://www.smt.org/</p>
50	What marketing plans do you foresee after the website is complete (e.g. search engine optimization, email marketing, social marketing etc.)? Are these a part of the scope or would you like the vendor to include these as optional items?	<p><i>SEO and social marketing capabilities. Proposers should include them as an option with their proposals.</i></p>
51	Do you currently use Google analytics? How many visitors does your website get on average per month?	<p><i>Yes. Refer to Response #36</i></p>
52	How would you evaluate the success of the new website? What are the key measures you would use?	<p><i>Pre-launch feedback from Board of Trustees and Management; the success of website launch; page views post-launch.</i></p>
53	Is the current website using any proprietary platforms or third-party software (E.g. Fleet-Net)? Does the new site need to support (other than a simple link) to any of those platforms?	<p><i>No proprietary platforms or third-party software.</i></p> <p><i>Yes, the new website will need the capability to support other platforms.</i></p>

#	Questions submitted or asked	Response from GPMTD
54	What are the major considerations for your organization regarding choice of CMS? E.g. security, ease of use, cost etc.	<i>Ease of use for public use and internal management of the website.</i>
55	Please describe the requirements for the applicant portal in detail? Organizations can spend large budgets on applicant management applications, we need to understand your expectations for this feature.	<i>Page where visitors can click to job link page and see the job descriptions for open positions; information is an interactive application where the information provided can be "exported" into an Excel spreadsheet or some sort of report form. GPMTD is not looking for an application tracking/management system. An example of applicant portal is on the Pekin Insurance website. (http://www.pekininsurance.com/)</i>
56	Please confirm if we need to tie into LDAP for authentication or if you need a separate IDM	<i>LDAP.</i>
57	Will content be permission based meaning only certain groups will have access to certain pieces of information?	<i>No.</i>
58	You have indicated your employees will need access to policies, forms, insurance information, service alert information, newsletters and communication for the District.	<i>Refer to #59-61 for Related Questions.</i>
59	What of these above items are third-party systems	<i>None.</i>
60	What of these above items are considered permission based	<i>None.</i>
61	What of these above items are considered only available to certain employee groups?	<i>N/A.</i>
62	For the areas listed above that are not third party systems,	<i>Refer to #63-66 for Related Questions.</i>
63	Where does this content currently exist?	<i>Network shares and uploaded on the current website.</i>
64	Is it already electronic?	<i>Yes.</i>
65	Who will be responsible for entering the content into the portal?	<i>Designated GPMTD Staff</i>
66	Do you have a structured site map of this area that has a page count if we, as a vendor are required to input said content?	<i>There is not a structured site map.</i>

#	Questions submitted or asked	Response from GPMTD
67	Please supply some sites of interest that you like. It was mentioned that you liked https://trimet.org/ . If there are any others, that would be appreciated.	<i>Refer to Response #48</i>
68	Does GPMTD prefer that the vendors provide SAML or LDAP abilities for the Employee Intranet?	<i>Refer to Response #56</i>
69	Could you please provide more details on the requirements for the employee portal?	<i>Basic information for employees that can be accessed remotely and integrate the use of virtual announcements.</i>
70	Have you seen an employee portal on another site that you really like and would like your new website to model?	<i>No</i>
71	Does the Intranet need to be a separate codebase, or can be it a user restricted section of the primary website?	<i>User restricted area of the primary website.</i>
72	Will the Employee Intranet require a different look and feel? If so, to what extent?	<i>Employee Intranet does not need to mirror Website Design.</i>
73	What is the optimal targeted budget range for the project, including the Intranet and Applicant functionality?	<i>Refer to Response #4.</i>
74	Please confirm if Fleet Net is available to use. Is there a URL that can be used to see how it currently works	<i>Not at this time. Refer to #75.</i>
75	If it is not, please comment on the following:	<i>Refer to #76-77 for Related Questions.</i>
76	Do you need an actual portal for people to log into to see job openings? Portal implies that there is some sort of registration in place that users must create an account to be a part of. Once an account is established then they can see job postings. Is that what you want?	<i>No, GPMTD does not want potential applicants to have to create a profile in order to apply for job postings.</i>
77	Or, rather than a portal, do you need the ability to post jobs where you can turn them on and off as needed? Applicants can then click an apply now button for the specific job of interest.	<i>Yes, this is more in line with what we are looking for.</i>

#	Questions submitted or asked	Response from GPMTD
78	We see there is a desire for an applicant tracking system. Should this system allow for the management of applicants once they apply or should this system simply display jobs that are available?	<i>Refer to Response #55.</i>
79	Do you have a preference for the CMS to be used? E.g. open source CMS like, Wordpress, Drupal, for Linux?	<i>Refer to Response #30.</i>
80	Please describe the vendor database feature in detail. What is the source of the data? In what format will it be supplied? What do users need to be able to do with this data on the website?	Refer to Addendum #2
81	Please explain further for the vendor database requirement	<i>Refer to Response #80.</i>
82	Could you please provide more details on the requirements for the vendor portal?	<i>Refer to Response #80.</i>
83	Have you seen a vendor portal on another site that you really like and would like your new website to model?	<i>Refer to Response #80.</i>

ATTACHMENT A

List of Modules

▼ CORE

ENABLED	NAME	VERSION	DESCRIPTION
<input type="checkbox"/>	Aggregator	7.43	Aggregates syndicated content (RSS, RDF, and Atom feeds).
<input checked="" type="checkbox"/>	Block	7.43	Controls the visual building blocks a page is constructed with. Blocks are boxes of content rendered into an area, or region, of a web page. Required by: Dashboard (enabled)
<input type="checkbox"/>	Blog	7.43	Enables multi-user blogs.
<input type="checkbox"/>	Book	7.43	Allows users to create and organize related content in an outline.
<input checked="" type="checkbox"/>	Color	7.43	Allows administrators to change the color scheme of compatible themes. Required by: Stylizer (disabled)
<input checked="" type="checkbox"/>	Comment	7.43	Allows users to comment on and discuss published content. Requires: Text (enabled), Field (enabled), Field SQL storage (enabled) Required by: Forum (disabled), Tracker (disabled)
<input type="checkbox"/>	Contact	7.43	Enables the use of both personal and site-wide contact forms.
<input type="checkbox"/>	Content translation	7.43	Allows content to be translated into different languages. Requires: Locale (disabled)
<input checked="" type="checkbox"/>	Contextual links	7.43	Provides contextual links to perform actions related to elements on a page.
<input checked="" type="checkbox"/>	Dashboard	7.43	Provides a dashboard page in the administrative interface for organizing administrative tasks and tracking information within your site. Requires: Block (enabled)
<input checked="" type="checkbox"/>	Database logging	7.43	Logs and records system events to the database.

<input checked="" type="checkbox"/>	Field	7.43	<p>Field API to add fields to entities like nodes and users.</p> <p>Requires: Field SQL storage (enabled), Field (enabled)</p> <p>Required by: Drupal, Field SQL storage (enabled), Field (enabled), Text (enabled), Comment (enabled), File (enabled), Image (enabled), Dynamic display block (enabled), Field UI (enabled), File entity (enabled), Options (enabled), Taxonomy (enabled), Forum (disabled), List (enabled), Media (enabled), Media Internet Sources (disabled), Media Field (disabled), Number (enabled), Read More Control (enabled), Smart Trim (enabled), Tracker (disabled), WP Blog (enabled), YouTube Field (enabled)</p>
<input checked="" type="checkbox"/>	Field SQL storage	7.43	<p>Stores field data in an SQL database.</p> <p>Requires: Field (enabled), Field SQL storage (enabled)</p> <p>Required by: Drupal, Field SQL storage (enabled), Field (enabled), Text (enabled), Comment (enabled), File (enabled), Image (enabled), Dynamic display block (enabled), Field UI (enabled), File entity (enabled), Options (enabled), Taxonomy (enabled), Forum (disabled), List (enabled), Media (enabled), Media Internet Sources (disabled), Media Field (disabled), Number (enabled), Read More Control (enabled), Smart Trim (enabled), Tracker (disabled), WP Blog (enabled), YouTube Field (enabled)</p>
<input checked="" type="checkbox"/>	Field UI	7.43	<p>User interface for the Field API.</p> <p>Requires: Field (enabled), Field SQL storage (enabled)</p>
<input checked="" type="checkbox"/>	File	7.43	<p>Defines a file field type.</p> <p>Requires: Field (enabled), Field SQL storage (enabled)</p> <p>Required by: Drupal (Field type(s) in use – see Field list), Image (enabled), Dynamic display block (enabled), File entity (enabled), Media (enabled), Media Internet Sources (disabled), Media Field (disabled), YouTube Field (enabled)</p>
<input checked="" type="checkbox"/>	Filter	7.43	<p>Filters content in preparation for display.</p> <p>Required by: Drupal, Smart Trim (enabled)</p>
<input type="checkbox"/>	Forum	7.43	<p>Provides discussion forums.</p> <p>Requires: Taxonomy (enabled), Options (enabled), Field (enabled), Field SQL storage (enabled), Comment (enabled), Text (enabled)</p>
<input checked="" type="checkbox"/>	Help	7.43	<p>Manages the display of online help.</p>
<input checked="" type="checkbox"/>	Image	7.43	<p>Provides image manipulation tools.</p> <p>Requires: File (enabled), Field (enabled), Field SQL storage (enabled)</p> <p>Required by: Drupal (Field type(s) in use – see Field list), Dynamic display block (enabled), Media (enabled), Media Internet Sources (disabled), Media Field (disabled), YouTube Field (enabled)</p>
<input checked="" type="checkbox"/>	List	7.43	<p>Defines list field types. Use with Options to create selection lists.</p> <p>Requires: Field (enabled), Field SQL storage (enabled), Options (enabled)</p>
<input type="checkbox"/>	Locale	7.43	<p>Adds language handling functionality and enables the translation of the user interface to languages other than English.</p> <p>Required by: Content translation (disabled)</p>
<input checked="" type="checkbox"/>	Menu	7.43	<p>Allows administrators to customize the site navigation menu.</p> <p>Required by: Special menu items (enabled)</p>
<input checked="" type="checkbox"/>	Node	7.43	<p>Allows content to be submitted to the site and displayed on pages.</p> <p>Required by: Drupal, Read More Control (enabled)</p>

<input checked="" type="checkbox"/>	Number	7.43	Defines numeric field types. Requires: Field (enabled), Field SQL storage (enabled)
<input type="checkbox"/>	OpenID	7.43	Allows users to log into your site using OpenID.
<input checked="" type="checkbox"/>	Options	7.43	Defines selection, check box and radio button widgets for text and numeric fields. Requires: Field (enabled), Field SQL storage (enabled) Required by: Taxonomy (enabled), Forum (disabled), List (enabled), WP Blog (enabled)
<input checked="" type="checkbox"/>	Overlay	7.43	Displays the Drupal administration interface in an overlay.
<input checked="" type="checkbox"/>	Path	7.43	Allows users to rename URLs. Required by: Pathauto (enabled)
<input checked="" type="checkbox"/>	PHP filter	7.43	Allows embedded PHP code/snippets to be evaluated.
<input type="checkbox"/>	Poll	7.43	Allows your site to capture votes on different topics in the form of multiple choice questions.
<input checked="" type="checkbox"/>	RDF	7.43	Enriches your content with metadata to let other applications (e.g. search engines, aggregators) better understand its relationships and attributes.
<input checked="" type="checkbox"/>	Search	7.43	Enables site-wide keyword searching.
<input checked="" type="checkbox"/>	Shortcut	7.43	Allows users to manage customizable lists of shortcut links.
<input type="checkbox"/>	Statistics	7.43	Logs access statistics for your site.
<input type="checkbox"/>	Syslog	7.43	Logs and records system events to syslog.
<input checked="" type="checkbox"/>	System	7.43	Handles general site configuration for administrators. Required by: Drupal
<input checked="" type="checkbox"/>	Taxonomy	7.43	Enables the categorization of content. Requires: Options (enabled), Field (enabled), Field SQL storage (enabled) Required by: Drupal (Field type(s) in use – see Field list), Forum (disabled), WP Blog (enabled)
<input type="checkbox"/>	Testing	7.43	Provides a framework for unit and functional testing.
<input checked="" type="checkbox"/>	Text	7.43	Defines simple text field types. Requires: Field (enabled), Field SQL storage (enabled) Required by: Drupal (Field type(s) in use – see Field list), Comment (enabled), Forum (disabled), Smart Trim (enabled), Tracker (disabled)
<input checked="" type="checkbox"/>	Toolbar	7.43	Provides a toolbar that shows the top-level administration menu items and links from other modules. Required by: Toolbar Hider (enabled)
<input checked="" type="checkbox"/>	Update manager	7.43	Checks for available updates, and can securely install or update modules and themes via a web interface.
<input checked="" type="checkbox"/>	User	7.43	Manages the user registration and login system. Required by: Drupal

- ADMINISTRATION

ENABLED	NAME	VERSION	DESCRIPTION	OPERATIONS
<input checked="" type="checkbox"/>	Toolbar Hider	7.x-1.0	Shows/hides toolbar with the press of a key. Requires: Toolbar (enabled)	Configure

- CHAOS TOOL SUITE

ENABLED	NAME	VERSION	DESCRIPTION
<input type="checkbox"/>	Bulk Export	7.x-1.3	Performs bulk exporting of data objects known about by Chaos tools. Requires: Chaos tools (enabled)
<input checked="" type="checkbox"/>	Chaos tools	7.x-1.3	A library of helpful tools by Merlin of Chaos. Required by: Bulk Export (disabled), Custom rulesets (disabled), Chaos Tools (CTools) AJAX Example (disabled), Custom content panes (disabled), Page manager (disabled), Chaos Tools (CTools) Plugin Example (disabled), Views (enabled), Date Views (enabled), Display Suite (enabled), Display Suite Devel (disabled), Display Suite Extras (disabled), Display Suite Format (disabled), Display Suite Forms (disabled), Display Suite Search (disabled), Display Suite UI (disabled), File entity (enabled), Media (enabled), Media Internet Sources (disabled), Media Field (disabled), Stylizer (disabled), Views content panes (disabled), Views Slideshow (enabled), Views Slideshow: Cycle (enabled), Views UI (enabled), WP Blog (enabled)

▼ DATE/TIME

ENABLED	NAME	VERSION	DESCRIPTION
<input checked="" type="checkbox"/>	Date	7.x-2.6	Makes date/time fields available. Requires: Date API (enabled) Required by: Drupal (Field type(s) in use - see Field list), Date All Day (disabled), Date Context (disabled), Date Migration (disabled), Date Repeat Field (disabled), Date Migration Example (disabled), Date Tools (disabled)
<input type="checkbox"/>	Date All Day	7.x-2.6	Adds 'All Day' functionality to date fields, including an 'All Day' theme and 'All Day' checkboxes for the Date select and Date popup widgets. Requires: Date API (enabled), Date (enabled)
<input checked="" type="checkbox"/>	Date API	7.x-2.6	A Date API that can be used by other modules. Required by: Date (enabled), Date All Day (disabled), Date Context (disabled), Date Migration (disabled), Date Repeat API (disabled), Date Repeat Field (disabled), Date Migration Example (disabled), Date Popup (enabled), Date Tools (disabled), Date Views (enabled)
<input type="checkbox"/>	Date Context	7.x-2.6	Adds an option to the Context module to set a context condition based on the value of a date field. Requires: Date (enabled), Date API (enabled), Context (missing)
<input type="checkbox"/>	Date Migration	7.x-2.6	Provides support for importing into date fields with the Migrate module. Requires: Migrate (missing), Date (enabled), Date API (enabled) Required by: Date Migration Example (disabled)
<input checked="" type="checkbox"/>	Date Popup	7.x-2.6	Enables jquery popup calendars and time entry widgets for selecting dates and times. Requires: Date API (enabled)
<input type="checkbox"/>	Date Repeat API	7.x-2.6	A Date Repeat API to calculate repeating dates and times from iCal rules. Requires: Date API (enabled) Required by: Date Repeat Field (disabled), Date Migration Example (disabled)
<input type="checkbox"/>	Date Repeat Field	7.x-2.6	Creates the option of Repeating date fields and manages Date fields that use the Date Repeat API. Requires: Date API (enabled), Date (enabled), Date Repeat API (disabled) Required by: Date Migration Example (disabled)
<input type="checkbox"/>	Date Tools	7.x-2.6	Tools to import and auto-create dates and calendars. Requires: Date (enabled), Date API (enabled)
<input checked="" type="checkbox"/>	Date Views	7.x-2.6	Views integration for date fields and date functionality. Requires: Date API (enabled), Views (enabled), Chaos tools (enabled)

▼ DISPLAY SUITE

ENABLED	NAME	VERSION	DESCRIPTION
<input checked="" type="checkbox"/>	Display Suite	7.x-2.4	Extend the display options for every entity type. Requires: Chaos tools (enabled) Required by: Display Suite Devel (disabled), Display Suite Extras (disabled), Display Suite Format (disabled), Display Suite Forms (disabled), Display Suite Search (disabled), Display Suite UI (disabled)

▼ FIELDS

ENABLED	NAME	VERSION	DESCRIPTION
<input checked="" type="checkbox"/>	Select (or other)	7.x-2.17	Provides a select box form element with additional option 'Other' to give a textfield.
<input checked="" type="checkbox"/>	Smart Trim	7.x-1.4	Provides a more robust alternative to "summary or trimmed" textfield format Requires: Filter (enabled), Text (enabled), Field (enabled), Field SQL storage (enabled)
<input checked="" type="checkbox"/>	YouTube Field	7.x-1.0	Provides an YouTube widget for fields. Requires: Field (enabled), Field SQL storage (enabled), Image (enabled), File (enabled) Required by: Drupal (Field type(s) in use - see Field list)

▼ MEDIA

ENABLED	NAME	VERSION	DESCRIPTION
<input checked="" type="checkbox"/>	File entity	7.x-2.0-unstable7	Extends Drupal file entities to be fieldable and viewable. Requires: Field (enabled), Field SQL storage (enabled), File (enabled), Chaos tools (enabled) Required by: Media (enabled), Media Internet Sources (disabled), Media Field (disabled)
<input checked="" type="checkbox"/>	IMCE	7.x-1.7	An image/file uploader and browser supporting personal directories and user quota. Required by: IMCE Wysiwyg API bridge (enabled)
<input checked="" type="checkbox"/>	Media	7.x-1.3	Provides the core Media API Requires: File entity (enabled), Field (enabled), Field SQL storage (enabled), File (enabled), Chaos tools (enabled), Image (enabled) Required by: Media Internet Sources (disabled), Media Field (disabled)

▼ MULTILANGUAGE

ENABLED	NAME	VERSION	DESCRIPTION
<input checked="" type="checkbox"/>	GTranslate	7.x-1.9	Uses Google power to translate your web site.

OTHER

ENABLED	NAME	VERSION	DESCRIPTION
<input checked="" type="checkbox"/>	Advanced help	7.x-1.0	Allow advanced help and documentation. Required by: Chaos Tools (CTools) Plugin Example (disabled), Advanced help example (disabled)
<input type="checkbox"/>	Advanced help example	7.x-1.0	A example help module to demonstrate the advanced help module. Requires: Advanced help (enabled)
<input checked="" type="checkbox"/>	Browscap	7.x-2.0	Provides a replacement for PHP's get_browser() function.
<input checked="" type="checkbox"/>	Columns filter	7.x-1.x-dev	An input filter to format node body into columns.
<input checked="" type="checkbox"/>	Dynamic display block	7.x-1.0	Displays dynamic content in a block. Requires: Image (enabled), File (enabled), Field (enabled), Field SQL storage (enabled), Libraries (enabled)
<input checked="" type="checkbox"/>	Entity API	7.x-1.1	Enables modules to work with any entity type and to provide entities. Required by: Entity tokens (disabled), Profile2 (disabled), Profile2 translation (disabled), Profile2 group access (disabled), Profile2 pages (disabled)
<input type="checkbox"/>	Entity tokens	7.x-1.1	Provides token replacements for all properties that have no tokens and are known to the entity API. Requires: Entity API (enabled)
<input checked="" type="checkbox"/>	Facebook Like Button	7.x-2.3	Adds a configurable <i>Like</i> button for Facebook to each selected node type, as well as a configurable block with a <i>Like</i> box in it.
<input checked="" type="checkbox"/>	Libraries	7.x-1.0	Allows version dependent and shared usage of external libraries. Required by: Dynamic display block (enabled), Views Slideshow: Cycle (enabled)
