1-8 Pre-Bid Meeting

There will be a non-mandatory pre-bid Meeting on **October 8, 2019 at 2:00 pm (CST)** at GPMTD’s Administrative Office located at 2105 NE Jefferson Avenue, Peoria, Illinois 61603. All potential bidders attending will attend at their own cost and should bring a hardcopy of this solicitation. At this meeting bidders will be given the opportunity to ask questions and familiarize themselves with all the conditions that may affect the time or cost of performance. The GPMTD will conduct a site visit for all bidders so it will not be necessary later on for Bidders to make a subsequent claim or request a contract modification because of facts not known when the bid was submitted.

1-9 Bid Specifics

The GPMTD reserves the right to reject any or all bids. Any restrictions on the use of data contained within a bid must be clearly stated in the bid itself.

1-10 Disadvantaged Business Enterprise (DBE) Participation

The GPMTD has established a **10%** DBE contract goal on this project. Therefore, a proposer must, in order to be responsible and/or responsive, make a good faith effort to meet the goal. The Proposer can meet this requirement in either of two ways.

a. The Proposer can meet the goal, documenting commitments for participation by DBE firms sufficient to for this purpose.
b. Even if it does not meet the goal, the Proposer can document adequate good faith efforts. This means that the Proposer must show that it took all necessary and reasonable steps to achieve a DBE goal or other requirement of this part, which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.
For proposers to receive credit for the use of a DBE, the Illinois Unified Certification Program (IL UCP) must certify the proposed DBE prior to submission of the bid. It is the policy of GPMTD that Disadvantaged Business Enterprises (DBE’s) as defined in 49 CFR Part 26 shall have a level playing field to compete fairly for DOT-assisted contracts. Contractor is encouraged to take all necessary and reasonable steps to ensure that DBE’s have a level playing field to compete for and perform services on the contract, including participation in any subsequent supplemental contracts. If the contractor intends to subcontract a portion of the services on the project, contractor is encouraged to contact DBE’s to solicit their interest, capabilities and qualifications.

It is the policy of GPMTD to investigate the full extent of services offered by financial institutions owned and controlled by socially and economically disadvantaged individuals in the community, to make reasonable efforts to use these institutions, and to encourage prime contractors on DOT-assisted contracts to make use of these institutions. Therefore, GPMTD encourages prime contractors to use DBE financial institutions whenever possible.

49 CFR Part 26 requires GPMTD to collect certain data about firms attempting to participate in FTA contracts. This data must be provided on the enclosed Firm Data Sheet (Attachment H).

A. Certification – To be certified as a DBE, a firm must meet all certification eligibility standards. Firms that qualify as a DBE must: 1) be a small business as defined by the Small Business Administration; 2) be at least 51% owned by minorities, women and/or socially and economically disadvantaged adults, and 3) have its day-to-day operations controlled by women or minorities. The Illinois Unified Certification Program (IL UCP) will make its certification decisions based on the facts as a whole. DBE certification entitles contractors to participate in GPMTD’s DBE program; however, this certification does not guarantee that the contractor will obtain work with GPMTD.

B. Process – A firm must apply for certification through the IL UCP. Certification guidelines and applications are also available online as PDF’s at the following links:

http://www.idot.illinois.gov/doing-business/certifications/disadvantaged-business-enterprise-certification/index

Proposers are expected to examine the Scope of Work, scope of services required, specifications, schedules, compliance requirements and all instructions. Failure to do so will be at the Proposer's risk. It is the intent of these specifications to provide product(s)/service(s) of first quality, and the workmanship must be the best obtainable in the various trades. The product(s)/service(s) proposed must be high quality in all respects. No advantage will be taken by the Proposer in the omission of any part or detail, which goes to make the product/service(s) complete. All manner of workmanship and material used in the production of the services and not herein contained or specified shall be of the industry standard and shall conform to the best practices known in the industry.
Contractor will assume responsibility for all equipment used in the bid item, whether the same is
manufactured by the Contractor or purchased ready made from a source outside the Contractor's
company. It is the sole responsibility of the Contractor to read the Scope of Work/Specifications
and understand them.

The submission of a bid shall constitute an acknowledgment upon which GPMTD may rely on that
the Proposer has thoroughly examined and is familiar with the solicitation, instructions and Scope
of Work, including any work site identified in the IFB, and has reviewed and inspected all
applicable statutes, regulations, ordinances and resolutions addressing or relating to the goods and
services to be provided hereunder. The failure or neglect of a Proposer to receive or examine such
documents, work sites, regulations, ordinances, or resolutions shall in no way relieve the
Proposer from any obligations with respect to its Bid or to any Contract awarded pursuant to this
IFB. No claim for additional compensation will be allowed which is based on lack of knowledge
or misunderstanding of this IFB, work sites, statutes, regulations, ordinances, or resolutions.

1-12 Interpretation of IFB and Contract Documents

No oral interpretations as to the meaning of the IFB will be made to any Proposer. Any explanation
desired by a Proposer regarding the meaning or interpretation of the IFB, Scope of Work,
Specifications, etc., must be requested in writing and with sufficient time allowed (a minimum of
fifteen (15) calendar days before the bid due date) for a reply to reach all Proposers before the
submission of their bids. Any interpretation or change made will be in the form of an addendum
to the IFB, specifications, etc., as appropriate. All addendums will be furnished as promptly as is
practicable to all contractors who have registered to submit a bid on this IFB and to whom the IFB
has been issued to at least seven (7) calendar days prior to the bid due date. All addenda will

or instructions given by the District before the award of the Contract will not be binding upon the
GPMTD.

Such revisions and amendments, if any, shall be issued through addenda to this IFB. Copies of such addenda and/or amendments shall be placed on the GPMTD website and will be furnished to the Proposer’s email address submitted on the Contractors Registration Form. If the revisions or addenda require changes in requested information or the format for bid submission, the established date for submission of bids contained in this IFB may be postponed by such number of days as, in the GPMTD’s opinion, shall enable Proposers adequate time to revise their bids.

GPMTD reserves the right to cancel this IFB at any time or change the date and time for submitting bids by announcing same prior to the date and time established for bid submittal.

3-2  Rejection of Bids

GPMTD reserves the right to reject any or all bids and waive any minor informalities or irregularities.

3-3  Clarification of Bids

The District reserves the right to obtain clarification of any point in a bid or to obtain additional information necessary to properly evaluate a particular bid. Failure of a Bidder to respond to such a request for additional information or clarification may result in the bids’ rejection.

3-4  Approved Equals

In all cases, services and materials must be furnished as specified. Where brand names or specific items are used in the specifications, consider the term "or approved equal" to follow.

Any unapproved deviations, exceptions, substitutions, alternates or conditional qualifications contained in a bid may be cause for its rejection.

If potential proposers believe that their product is equal to the product specified, they must submit a written request to GPMTD on the provided form (Attachment D) and this request will be approved or rejected by GPMTD at least seven (7) calendar days prior to the due date of bids. Requests for approved equals and clarification of specifications must be received by GPMTD in writing a minimum of fifteen (15) days before the bid opening to allow analysis of the request.

Any request for an approved equal must be fully supported with catalog information, specifications and illustrations, or other pertinent information, as evidence that the substitute offered is equal to or better than the specification. Where an approved equal is requested, the Proposer must demonstrate the equality of this product to GPMTD to determine whether the Proposer’s product is or is not equal to that specified.
3-5 Modification or Withdrawal of Bids and Late Bids

At any time before the time and date set for submittal of bids, a Bidder may request to withdraw or modify its Bid. Such a request must be made in writing by a person with authority as identified on the IFB Cover Page, provided their identity is made known and a receipt is signed for the bid. GPMTD intends to award a Contract based on the terms, conditions, and attachments contained in this IFB. Bidders are strongly advised to not take any exceptions. Bidders shall submit bids which respond to the requirements of the IFB. An exception is not a response to an IFB requirement. If an exception is taken, a “Notice of Exception” must be submitted with the bid. The “Notice of Exception” must identify the specific point or points of exception and provide an alternative.

Bidders are cautioned that exceptions to the terms, conditions, and attachments may result in rejection of the bid.

GPMTD may, at its sole discretion, determine that a bid with a Notice of Exception merits acceptance. Failure to submit a marked-up copy of the form agreement with a bid will be interpreted by GPMTD as the proposer’s acceptance of the form agreement provided herein.

3-8 Collusion

The proposer guarantees that the bid submitted is not a product of collusion with any other proposer, and no effort has been made to fix the bid price of any proposer or to fix any overhead, profit, or cost element of any bid price (Affidavit of Non-Collusion). Failure to submit the signed affidavit at the time of bid opening shall be grounds for disqualification of the proposer's offer.

If GPMTD determines that collusion has occurred among Bidders, none of the bids from the participants in such collusion shall be considered. GPMTD’s determination shall be final.

3-9 Pricing, Taxes and Effective Date

The price to be quoted in any bid will include all items of labor, materials, tools, equipment, delivery and other costs necessary to fully meet the requirements of GPMTD. The price quoted by the proposing companies/firms will not change for a period of ninety (90) days, beginning from the date the bid is opened.

3-10 Bid Alternatives

Bids shall address all requirements identified in this solicitation. In addition, GPMTD may consider bid alternatives submitted by Bidders that provide enhancements beyond the IFB requirements. Bid alternatives may be considered if deemed to be in GPMTD’s best interests. Bid alternatives must be clearly identified.

3-11 Single Bid Response

If only one Bid is received in response to the IFB, a sample of two (2) Bids, if available, awarded to the Proposer within the past two (2) years may be requested of the single Proposer. A cost/price analysis and/or audit may be performed of the cost bid in order to determine if the price is fair and reasonable.

3-12 Exclusionary or Discriminatory Specifications

GPMTD agrees that it will comply with the requirements of 49 U.S.C. Section 5323(h) (2) by refraining from using any Federal assistance awarded by the FTA to support procurements using exclusionary or discriminatory specifications. GPMTD further agrees to refrain from using state or local geographic preferences, except those expressly mandated or encouraged by Federal Statute.

- The completeness of the bid,
- The Bidder meets the Scope of Work specifications,
- The Bidder has submitted bid on or before the required due date and time,

Upon authorization by GPMTD’s Board of Trustees, or designee, the Contract will be countersigned. Therefore, the contents of this IFB and the Contractor’s bid submitted in response to this IFB shall be considered public documents and are subject to the Illinois FOIA statutes. As such, all bids submitted to GPMTD will be available for inspection and copying by the public after the selection process has been concluded. There are, however, various items that may be exempt under public disclosure laws. If any proprietary, privileged, or confidential information or data is included in the Contractor’s bid, each page that contains this information or data should be marked as such (e.g., “Proprietary,” “Confidential,” “Business Secret,” or “Competition Sensitive”) in order to indicate your claims to an exemption provided in the Illinois FOIA. It is GPMTD’s sole right and responsibility, however, to make the determination whether these items are exempt or not exempt under the Illinois FOIA statutes.

All data, documentation and innovations developed as a result of these contractual services shall become the property of GPMTD.
SECTION 5 – STANDARD CONTRACTUAL TERMS & CONDITIONS

5-1 Administration

This Contract is between GPMTD and the Contractor who will be responsible for providing the goods and/or performing the services described herein. GPMTD is not party to defining the division of work between the Contractor and its Subcontractors, if any, and the Specifications and/or Scope of Services has not been written with this intent.

Contractor represents that it has or will obtain all duly licensed and qualified personnel and equipment required to perform hereunder. Contractor’s performance under this Contract may be monitored and reviewed by a Procurement Administrator appointed by GPMTD. Reports and data required to be provided by Contractor shall be delivered to the Procurement Administrator. Questions by Contractor regarding interpretation of the terms, provisions, and requirements of this Contract shall be addressed to the Procurement Administrator for response.

5-2 Notification of Delay

Contractor will notify GPMTD’s Procurement Administrator as soon as Contractor has, or should have, knowledge that an event has occurred which will delay delivery or start-up of services. Within five days, Contractor will confirm such notice in writing furnishing as many details as is available.

5-3 Request for Extension

Contractor agrees to supply, as soon as such data are available, any reasonable proofs that are required by GPMTD’s Procurement Administrator to make a decision of any request for extension. GPMTD’s Procurement Administrator will examine the request and any documents supplied by Contractor and will determine if Contractor is entitled to an extension and the duration of such extension. GPMTD’s Procurement Administrator will notify Contractor of the decision in writing. It is expressly understood and agreed that Contractor will not be entitled to damages or compensation, and will not be reimbursed for losses on account of delays resulting from any cause under this provision.

5-4 Contract Changes

Any proposed change in the contract will be submitted to GPMTD for its prior written approval and GPMTD will make the change by a Change Order if agreed upon by both parties in writing. Each written Change Order will expressly include any change in the Contract price or delivery schedule. No oral order or conduct by GPMTD will constitute a Change Order unless confirmed in writing by GPMTD.

Equitable adjustments are allowable at the sole discretion of the GPMTD in unforeseen situations where subsurface or latent physical conditions of the construction site differ materially from those indicated in this Agreement, or unknown physical conditions at the site, of an unusual nature, differ materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this Agreement.

The Contractor must notify the General Contractor for the project and GPMTD’s Procurement Administrator in writing of any suspected material differences between the site conditions and those
conditions either described in this Agreement or those ordinarily encountered or generally recognized as inherent to the nature of the work prior to disturbing site conditions. If the Contractor proceeds with work and fails to make the required notification above and the process below does not first take place the Contractor will not be entitled under the terms of this contract to use the change order process to recover additional costs based on this equitable adjustment process.

The GPMTD will promptly investigate any such claims with the assistance of a representative of the Farnsworth Group possessing the knowledge and skills required to reach a fair decision concerning the reasonableness of the claim.

Claims validated through this review process will result in negotiation between the GPMTD and the Contractor to reach consensus on an equitable adjustment to the total final contract price. Adjustments will include only those additional costs incurred for the portion of the contract work directly affected by the differing site conditions, including delay and impact costs.

Any proposed change in the contract will be subject to the change order provisions of this Agreement.

If the parties cannot agree on the validity of the claim or the amount of compensation considered equitable, the Contractor is required to proceed with the specified work and resolve the issue later.

5-5 Instructions by Unauthorized Third Persons

In accordance with subsection 5-4, Contract Changes, of the solicitation, GPMTD’s GM or his authorized representative are the only persons authorized to make changes within the general scope of the Contract.

Any instructions, written or oral, given to Contractor by someone other than GPMTD’s GM or his authorized representative, which are considered to be a change in the Contract, will not be considered as an authorized Contract change. Any action on the part of Contractor taken in compliance with such instructions will not be grounds for subsequent payment or other consideration in compliance with the unauthorized change.

5-6 Cost or Price Analysis

GPMTD reserves the right to conduct a cost or price analysis for any purchase. GPMTD may be required to perform a cost analysis when competition is lacking for any purchase. Sole source procurements which result in a single Bid being received will be subject to a cost analysis which will include the appropriate verification of cost data, the evaluation of specific elements of costs and the projection of data to determine the effect on Bid prices. GPMTD may require a Pre-Award Audit and potential Contractors shall be prepared to submit data relevant to the proposed work which will allow GPMTD to sufficiently determine that the proposed price is fair, reasonable, and in accordance with Federal, State and local regulations. Procurements resulting in a single Bid will be treated as a negotiated procurement and GPMTD reserves the right to negotiate with the single Proposer to achieve a fair and reasonable price. If a negotiated price cannot be agreed upon by both parties, GPMTD reserves the right to reject the single Bid. Contract change orders or modifications will be subject to a cost analysis.
5-7 Lack of Funds

If expected or actual funding is withdrawn, reduced, or limited in any way prior to the expiration date set forth in this Contract or in any amendment hereto, GPMTD may, upon written notice to Contractor, terminate this Contract in whole or in part. Such termination shall be in accordance with GPMTD’s rights to terminate for convenience or default.

5-8 Force Majeure

The timely receipt of GPMTD's requirements is essential. If the requirements are not received on time in accordance with the delivery schedule, GPMTD may cancel the unfilled portion of the contract for cause, purchase substitute requirements elsewhere, and recover from Contractor any increased costs, thereby incurred together with all resulting incidental and consequential damages. GPMTD may also terminate for cause, purchase substitute requirements elsewhere and recover costs and damages for breach of Contractor obligations.

The Contractor shall be entitled to a reasonable extension of time from GPMTD for the delays caused by damage to Contractor's and/or GPMTD's property caused by fire, lightning, earthquakes, tornadoes, and other extreme weather conditions or acts of nature, power failures, riots, acts of civil or military authorities of competent jurisdiction, strikes, lockouts, and any other industrial, civil or public disturbances beyond the control of the Contractor and its subcontractors causing the inability to perform the requirements of this Contract. Any delay other than ones mentioned above shall constitute a breach of Contractor's contractual obligations.

5-9 Taxes, Licenses, Laws, and Certificate Requirements

Contractor shall maintain and be liable for all taxes, fees, licenses, and costs as may be required by federal, state, and local laws, rules, and regulations for the conduct of business by Contractor and any subcontractors and shall secure and at all times maintain any and all such valid licenses and permits as may be required to provide the services or supplies under this Contract. If for any reason, Contractor’s required licenses or certificates are terminated, suspended, revoked, lapsed, or in any manner modified from their status at the time this Contract becomes effective, Contractor shall immediately notify GPMTD in writing of such condition.

Contractor will give all notices and comply with all federal, state, local and GPMTD laws, ordinances, rules, regulations, standards, and orders of any public authority bearing on the performance of the Contract, including, but not limited to, the laws referred to in these General Provisions of the Contract and the other Contract Documents. If the Contract Documents are at variance therewith in any respect, any necessary changes shall be adjusted by appropriate modification. Omission of any applicable laws, ordinances, rules, regulations, standards or orders by GPMTD in the Contract Documents shall be construed as an oversight and shall not relieve the Contractor from his obligations to meet such fully and completely. Upon request, Contractor shall furnish to GPMTD certificates of compliance with all such laws, orders and regulations. Contractor shall be responsible for obtaining all necessary permits and licenses required for performance under the Contract.

Applicable provisions of all federal, state, and local laws, and of all ordinances, rules, and regulations shall govern any and all claims and disputes which may arise between person(s) submitting a Bid response hereto and GPMTD, by and through its officers, employees and authorized representatives, or any other persons, natural and otherwise, and lack of knowledge by any Contractor shall not constitute a cognizable defense against the legal effect thereof.
5-10  Defective Work, Materials or Services

When and as often as GPMTD determines that the work, materials, or services furnished under the Contract are not fully and completely in accordance with any requirement of the Contract, it may give notice and description of such non-compliance to Contractor. The Contractor agrees to maintain all books, records, accounts and reports required under this contract for a period of not less than three years after the date of termination or expiration of this contract, except in the event of litigation or settlement of claims arising from the performance of this contract, in which case Contractor agrees to maintain same until the Purchaser, the FTA Administrator, the Comptroller General, or any of their duly authorized representatives, have disposed of all such litigation, appeals, claims or exceptions related thereto. Reference 49 CFR 18.39(i)(11).

14. FTA does not require the inclusion of these requirements in subcontracts.

8-4 Changes to Federal Requirements

Federal Changes - Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Master Agreement between Purchaser and FTA, as they may be amended or promulgated from time to time during the term of this contract. Contractor's failure to so comply shall constitute a material breach of this contract.
a. **Termination for Convenience (General Provision)** The GPMTD may terminate this contract, in whole or in part, at any time by written notice to the Contractor when it is in the Government's best interest. The Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. The Contractor shall promptly submit its termination claim to GPMTD to be paid the Contractor. If the Contractor has any property in its possession belonging to the GPMTD, the Contractor will account for the same, and dispose of it in the manner the GPMTD directs.

b. **Termination for Default [Breach or Cause] (General Provision)** If the Contractor does not deliver supplies in accordance with the contract delivery schedule, or, if the contract is for services, the Contractor fails to perform in the manner called for in the contract, or if the Contractor fails to comply with any other provisions of the contract, the GPMTD may terminate this contract for default. Termination shall be effected by serving a notice of termination on the contractor setting forth the manner in which the Contractor is in default. The contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract.

If it is later determined by the GPMTD that the Contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of the Contractor, the GPMTD, after setting up a new delivery of performance schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

c. **Opportunity to Cure (General Provision)** The GPMTD in its sole discretion may, in the case of a termination for breach or default, allow the Contractor 10 business days in which to cure the defect. In such case, the notice of termination will state the time period in which cure is permitted and other appropriate conditions.

If Contractor fails to remedy to GPMTD's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by Contractor of written notice from GPMTD setting forth the nature of said breach or default, GPMTD shall have the right to terminate the Contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to preclude GPMTD from also pursuing all available remedies against Contractor and its sureties for said breach or default.

d. **Waiver of Remedies for any Breach** In the event that GPMTD elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this Contract, such waiver by GPMTD shall not limit GPMTD's remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

e. **Termination for Convenience of Default (Cost-Type Contracts)** The GPMTD may terminate this contract, or any portion of it, by serving a notice or termination on the Contractor. The notice shall state whether the termination is for convenience of the GPMTD or for the default of the Contractor. If the termination is for default, the notice shall state the manner in which the contractor has failed to perform the requirements of the contract. The Contractor shall account for any property in its possession paid for from funds received from the GPMTD, or property supplied to the Contractor by the GPMTD. If the termination is for default, the GPMTD may fix the fee, if the contract provides for a fee, to be paid the contractor in proportion to the value, if any, of work performed up to the time of termination. The Contractor shall promptly submit its termination claim to the GPMTD and the parties shall negotiate the termination settlement to be paid the Contractor.
If the termination is for the convenience of the GPMTD, the Contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination.

f. **Termination for Default (Supplies and Service)** If the Contractor fails to deliver supplies or to perform the services within the time specified in this contract or any extension or if the Contractor fails to comply with any other provisions of this contract, the GPMTD may terminate this contract for default. The GPMTD shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. The Contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner or performance set forth in this contract.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Recipient.

g. **Termination for Default (Transportation Services)** If the Contractor fails to pick up the commodities or to perform the services, including delivery services, within the time specified in this contract or any extension or if the Contractor fails to comply with any other provisions of this contract, the GPMTD may terminate this contract for default. The GPMTD shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of default. The Contractor will only be paid the contract price for services performed in accordance with the manner of performance set forth in this contract.

If this contract is terminated while the Contractor has possession of Recipient goods, the Contractor shall, upon direction of the GPMTD, protect and preserve the goods until surrendered to the Recipient or its agent. The Contractor and GPMTD shall agree on payment for the preservation and protection of goods. Failure to agree on an amount will be resolved under the Dispute clause.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the GPMTD.

h. **Termination for Default (Construction)** If the Contractor refuses or fails to prosecute the work or any separable part, with the diligence that will insure its completion within the time specified in this contract or any extension or fails to complete the work within this time, or if the Contractor fails to comply with any other provisions of this contract, the GPMTD may terminate this contract for default. The GPMTD shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. In this event, the Recipient may take over the work and compete it by contract or otherwise, and may take possession of and use any materials, appliances, and plant on the work site necessary for completing the work. The Contractor and its sureties shall be liable for any damage to the Recipient resulting from the Contractor's refusal or failure to complete the work within specified time, whether or not the Contractor's right to proceed with the work is terminated. This liability includes any increased costs incurred by the Recipient in completing the work.

The Contractor's right to proceed shall not be terminated nor the Contractor charged with damages under this clause if-

1. the delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include: acts of God, acts of the Recipient, acts of another Contractor in the performance of a
contract with the Recipient, epidemics, quarantine restrictions, strikes, freight embargoes; and

2. the contractor, within [10] days from the beginning of any delay, notifies the GPMTD in writing of the causes of delay. If in the judgment of the GPMTD, the delay is excusable, the time for completing the work shall be extended. The judgment of the GPMTD shall be final and conclusive on the parties, but subject to appeal under the Disputes clauses.

If, after termination of the Contractor's right to proceed, it is determined that the Contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if the termination had been issued for the convenience of the Recipient.

(1) Minimum wages - (i) All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR Part 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classifications and wage rates conformed under paragraph (1)(ii) of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

(ii)(A) The contracting officer shall require that any class of laborers or mechanics, includinghelpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:
1. Except with respect to helpers as defined as 29 CFR 5.2(n)(4), the work to be performed by the classification requested is not performed by a classification in the wage determination; and

2. The classification is utilized in the area by the construction industry; and

3. The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination; and

4. With respect to helpers as defined in 29 CFR 5.2(n)(4), such a classification prevails in the area in which the work is performed.

(B) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(C) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(ii) (B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program. Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

(v)(A) The contracting officer shall require that any class of laborers or mechanics which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefor only when the following criteria have been met:
1. The work to be performed by the classification requested is not performed by a classification in the wage determination; and

2. The classification is utilized in the area by the construction industry; and

3. The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(B) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(C) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination with 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(v) (B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(2) **Withholding** - The Greater Peoria Mass Transit District shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, the [insert name of grantee] may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(3) **Payrolls and basic records** - (i) Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section
1(b)(2)(B) of the Davis-Bacon Act, daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

(A) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the GPMTD for transmission to the Federal Transit Administration. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under section 5.5(a)(3)(i) of Regulations, 29 CFR part 5. This information may be submitted in any form desired. Optional Form WH-347 is available for this purpose and may be purchased from the Superintendent of Documents (Federal Stock Number 029-005-00014-1), U.S. Government Printing Office, Washington, DC 20402. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors.

(B) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

1. (1) That the payroll for the payroll period contains the information required to be maintained under section 5.5(a)(3)(i) of Regulations, 29 CFR part 5 and that such information is correct and complete;

2. (2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;

3. (3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(B) of this section.

(D) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

(iii) The contractor or subcontractor shall make the records required under paragraph (a)(3)(i) of this section available for inspection, copying, or transcription by authorized representatives of the Federal Transit Administration or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the Federal agency may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the
suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

(4) Apprentices and trainees - (i) Apprentices - Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training, or with a State Apprenticeship Agency recognized by the Bureau, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator of the Wage and Hour Division of the U.S. Department of Labor determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Bureau of Apprenticeship and Training, or a State Apprenticeship Agency recognized by the Bureau, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved. (ii) Trainees - Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered
program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity - The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

(5) Compliance with Copeland Act requirements - The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

(6) Subcontracts - The contractor or subcontractor shall insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (10) and such other clauses as the Federal Transit Administration may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

(7) Contract termination: debarment - A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

(8) Compliance with Davis-Bacon and Related Act requirements - All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

(9) Disputes concerning labor standards - Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

(10) Certification of eligibility - (i) By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

8-21 Contract Work Hours and Safety Standards

The records to be maintained under this clause shall be made available by the Contractor or Subcontractor for inspection, copying, or transcription by authorized representatives of the FTA, US Department of Transportation, or the Department of Labor, and the Contractor or Sub-contractor will permit such representatives to interview employees during working hours on the job.
1. **Overtime requirements** - No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2. **Violation; liability for unpaid wages; liquidated damages** - In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

3. **Withholding for unpaid wages and liquidated damages** - The (write in the name of the grantee) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

4. **Subcontracts** - The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraphs (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

8-22 **Performance and Payment Bonds (Construction)**

The contractor shall furnish a performance bond in an amount equal to 100% of his or her contracted price.

The Contractor shall be required to obtain performance and payment bonds as follows:

a) **Performance bonds**

   The penal amount of performance bonds shall be 100 percent (100%) of the original contract price.

   The GPMTD may require additional performance bond protection when a contract price is increased. The increase in protection shall generally equal 100 percent of the increase in contract price. The GPMTD may secure additional protection by directing the Contractor to increase the penal amount of the existing bond or to obtain an additional bond.

b) **Payment bonds**

   The penal amount of the payment bonds shall equal Fifty percent (50%) of the contract price if the contract price is not more than $1 million.
8-23 Bid Bond Requirements (Construction)

The undersigned understands that any material alteration of any of the above or any of the material contained on this form, other than that requested, will render the bid unresponsive.

ATTACHMENT I – Good Faith Effort
(For information only – not to be returned)

1. The GPMTD has established a ten percent (10.0%) goal for Disadvantaged Business Enterprise (DBE) participation for this contract. Therefore, a proposer must, in order to be responsible and responsive, make a good-faith effort to meet the goal. The proposer can meet this requirement in either of two (2) ways. First, the proposer can meet or exceed the goal, documenting commitments for participation by DBE firms sufficient for this purpose. Second, even if the proposer doesn’t meet the goal, the proposer can document its good-faith efforts to meet the goal. This means that the proposer must show that it took all necessary and reasonable steps to achieve the DBE goal, or other requirement of this part which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.

2. The GPMTD will use the good-faith efforts mechanism as required by 49 CRF part 26. It is up to the GPMTD to make a fair and reasonable judgment whether a proposer that did not meet the goal made adequate good-faith efforts. The GPMTD will consider the quality, quantity, and intensity of the different kinds of efforts that the proposer made. The efforts employed by the proposer should be those that one could reasonably expect a proposer to take, if the proposer were actively and aggressively trying to obtain DBE participation sufficient to meet the DBE contract goal. Mere pro forma efforts are not good-faith efforts to meet the DBE contract requirements. As emphasized by the Department of Transportation, GPMTD’s determination concerning the sufficiency of the firm’s good-faith efforts is a judgment call; meeting quantitative formulas is not required.

3. The GPMTD will not require that a proposer meet a contract goal (i.e., obtain a specified amount of DBE participation) in order to be awarded a contract, even though the proposer shows that an adequate good-faith was made. The rule specifically prohibits the GPMTD from ignoring bona fide good-faith efforts.

4. The following is a list of types of actions that the GPMTD will consider as part of the proposer's good-faith efforts to obtain DBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.

   a. Soliciting through all reasonable and available means (e.g. attendance at pre-bid meetings, advertising, and/or written notices) the interest of all certified DBEs who have the capability to perform the work of the contract. The proposer must solicit this interest within sufficient time to allow the DBEs to respond to the solicitation. The proposer must determine with certainty whether or not a DBE is certified.

   b. The DBEs are interested by taking appropriate steps to follow up initial solicitations.

   c. Selecting portions of the work to be performed by DBEs in order to increase the likelihood that the DBE goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate DBE participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces.

   d. Providing interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.
ATTACHMENT I – Good-Faith Effort (Continued)

e. Negotiating in good-faith with interested DBEs. It is the proposer's responsibility to make a portion of the work available to DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for DBEs to perform the work.

A proposer using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE subcontractors, and would take a firm's price and capabilities, as well as contract goals, into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is not in itself sufficient reason for a proposer's failure to meet the contract DBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the proposer of the responsibility to make good-faith efforts. Prime contractors are not, however, required to accept higher quotes from DBEs, if the price difference is excessive or unreasonable.

f. Not rejecting DBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The Contractor's standing within its industry, membership in specific groups, organizations, or associations, and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids from DBEs in the Contractor's efforts to meet the project goal.

g. Making efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance, as required by the recipient or contractor.

h. Making efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.

i. Effectively using the services of available minority/women community organizations; minority/women contractors' groups; Federal, State, and Local minority/women business assistance offices; and other organizations, as allowed on a case-by-case basis, to provide assistance in the recruitment and placement of DBEs.

Explanations PEORIA COUNTY

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.
