

INVITATION FOR BID

ADDENDUM # 1 **Questions and Clarifications**

Forklift
IFB #FED2019-05

TO: Prospective Bidders
FROM: Martha Howarter, Director of Federal Programs
DATE: February 22, 2019
SUBJECT: Addendum No. 1 – Questions and Clarifications

The following is included as part of Addendum No.1 and supersedes the language/requirements set forth in the original "Invitation for Bid".

ADDENDUM # 1 – Questions and Clarifications

#	Questions submitted or asked	Response from GPMTD
1	On page 18 of the bid under “Machine Operation” the third bullet point states that the “Machine functions shall be controlled via an electronic touch panel and rocker switches; there shall be no levers of any kind”. LP forklifts (and almost all forklifts) are only able to manipulate the hydraulic functions using levers.	<i>Levers to manipulate the hydraulic functions is acceptable.</i>
2	Clarification: Page 19, first bullet point on page, “The machine shall have pneumatic tires front and rear.”	<i>“The machine shall have solid pneumatic tires front and rear.” - Not air-filled.</i>
3	The first bullet point under forks states that the “forks should have adjustable and side to side forks”. Does this mean you need a hydraulic side shifter and hydraulic fork positioner on the unit or a hydraulic fork positioner with manual fork adjustment.	<i>Hydraulic side shifter and hydraulic fork positioner.</i>
