1-10 Proposal Specifics

The Selection Committee reserves the right to reject any or all proposals. Any restrictions on the use of data contained within a proposal must be clearly stated in the proposal itself.

1-11 Disadvantaged Business Enterprise (DBE) Participation

The GPMTD has established a 10% DBE contract goal on this project. Therefore, a proposer must, in order to be responsible and/or responsive, make a good faith effort to meet the goal. The Proposer can meet this requirement in either of two ways.

- a. The Proposer can meet the goal, documenting commitments for participation by DBE firms sufficient to for this purpose.
- b. Even if it does not meet the goal, the Proposer can document adequate good faith efforts. This means that the Proposer must show that it took all necessary and reasonable steps to achieve a DBE goal or other requirement of this part, which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.

For proposers to receive credit for the use of a DBE, the Illinois Unified Certification Program (IL UCP) must certify the proposed DBE prior to submission of the proposal. It is the policy of GPMTD that Disadvantaged Business Enterprises (DBE's) as defined in 49 CFR Part 26 shall have a level playing field to compete fairly for DOT-assisted contracts. Contractor is encouraged to take all necessary and reasonable steps to ensure that DBE's have a level playing field to compete for and perform services on the contract, including participation in any subsequent supplemental contracts. If the contractor intends to subcontract a portion of the services on the project, contractor is encouraged to contact DBE's to solicit their interest, capabilities and qualifications.

It is the policy of GPMTD to investigate the full extent of services offered by financial institutions owned and controlled by socially and economically disadvantaged individuals in the community, to make reasonable efforts to use these institutions, and to encourage prime contractors on DOT-assisted contracts to make use of these institutions. Therefore, GPMTD encourages prime contractors to use DBE financial institutions whenever possible.

49 CFR Part 26 requires GPMTD to collect certain data about firms attempting to participate in FTA contracts. This data must be provided on the enclosed **Firm Data Sheet**.

- A. Certification – To be certified as a DBE, a firm must meet all certification eligibility standards. Firms that qualify as a DBE must: 1) be a small business as defined by the Small Business Administration; 2) be at least 51% owned by minorities, women and/or socially and economically disadvantaged adults, and 3) have its day-to-day operations controlled by women or minorities. The Illinois Unified Certification Program (IL UCP) will make its certification decisions based on the facts as a whole. DBE certification entitles contractors to participate in GPMTD’s DBE program; however, this certification does not guarantee that the contractor will obtain work with GPMTD.
- B. Process – A firm must apply for certification through the IL UCP. Certification guidelines and applications are also available online as PDF’s at the following links:

<http://www.idot.illinois.gov/doing-business/certifications/disadvantaged-business-enterprise-certification/index>

- C. DBE Program – For information about GPMTD’s DBE Program, firms may contact:

It is the intent of these specifications to provide product(s)/service(s) of first quality, and the workmanship must be the best obtainable in the various trades. Currently, GPMTD uses GFI Odyssey fare collection, Remix route planning, Motorola radio system on Starcom (state supported), Seon mobile camera system (wi-fi only), Twinvision/Luminator head signs, and Fleetnet. GPMTD is interested in additional technologies Automatic Vehicle Locator (AVL) / Mobile Data Computer (MDC) functionality. In addition, GPMTD is interested in integrating the new software solution with Automated Passenger Counters (APC’s), Automated Voice Annunciation (AVA’s) as other “Rider Information” technologies. GPMDT would like but not limiting the new technology to integrate with the existing technology. The goal of implementing new technology is to provide improved service to the customers of GPMTD through improved data collection and transit analysis, and greater dissemination of real time transit information.

GPMTD would like to see this new technology integrate with existing systems with the results of:

- Include but not limited, where has the bus been, where is the bus at, where is the bus going, when is the bus going to get there;
- Who was driving the bus, what route, alerts when bus is behind, alerts when the bus is ahead, alerts when the bus is speeding, alerts when the bus is off route all in real time;
- Supervisor ability to change or alter routes short term for construction, accidents, etc. Dispatch ability to communicate or message via MDC;
- Reports of passenger counts, types of fares, available by location, route, time, day, week, month, year, etc. Passenger per vehicle, passenger per route, passenger per stop, passenger count per hour;
- Reports of actual vehicle miles, actual vehicle hours, average of vehicle mile per hour;
- Revenue from farebox by stop, route, day, etc.;
- Head Signs automatically change according to the route/run the bus is on;
- Passenger friendly application through our web site (Where is my bus) that will give our passengers information such, when the bus will get to there location (bus stop), when the next bus is coming, information for planning their trip. Alert passenger of current detours and alternate stops. Alerts passengers of stops in service.

GPMTD is seeking one (1) qualified vendor to supply and implement the technology listed above as a single point of contact. GPMTD expects that multiple vendors may partner to supply the products required; however, one (1) vendor must be the prime contractor and supply a single point of contact to ensure the project success.

2-2 Required Components

1. Implementation of AVL / MDC system for the vehicles described including all necessary software, middleware, and hardware components.
2. Provide and integrate an Automated Passenger Counter Solution with the mobile data system.

2.4 GPMTD Responsibilities

- Provide the contractor/vendor with applicable work space
- Provide the necessary access to GPMTD workstations, servers, and scheduling/dispatch data.
- Ensure GPMTD personnel are available for scheduled training and necessary support.
- Provide onsite training classroom.

2-5 Hardware and Software Standards

GPMTD is primarily a “Microsoft shop” meaning most of the operating systems, Line of Business (LOB) applications, and other applications are compatible in this way. There is a Linux Operating System (O/S) presence as well to a lesser degree.

In addition, to this, there are a handful of LOB applications that are in use at GPMTD. It is important that the vendor’s solution be compatible and, as necessary to workflows, interact with these LOB applications. These applications include Fleetnet, Remix, Gasboy, GFI (farebox collection), Seon system (bus camera monitoring), Twinvision /Luminator head signs. Because of this, a complete list of applications the vendor’s solution is, and is not compatible with should be provided.

2-6 Project Management

Each response to this RFP should include the Vendor’s communication plan for ensuring a successful implementation. GPMTD intends to take an active role in the design, implementation, integration, and testing of this new technology within our system. Moreover, GPMTD required regular meeting and communication with the Vendor as to the progress and direction of the project. The communication plan developed by the Vendor should include as when the meetings with the project team will take place. Vendor will provide meeting minutes to GPMTD. At each of these meetings, the Vendor will provide an action item list to include current and historical items including the person responsible for documentation purposes. The Vendor is required to provide a detailed project schedule that includes tasks to be completed by GPMTD and the Vendor with appropriate dates.

2-7 Warranty and Maintenance Plans

Proper warranty agreements as well as a solid and complete maintenance plan is essential for any RFP response. This should cover not only the initial setup and integration of the platform, but also continued support to ensure the working operations of the platform. This means the vendor is required to ensure that the system is functional and operational before scheduling acceptance testing or final acceptance with GPMTD personnel. Additionally, through the use and life of the system, support from the vendor will be required and covered within the warranty / maintenance plan. In addition to this, a warranty on the hardware itself should span at least a 5-year mark. All maintenance, repair, replacement, and labor for such work must be covered under this warranty. AVL technology will continue to improve and change. The vendor's solution should include their plan to keep GPMTD up-to-date with the latest improvements to AVL technology. This plan should include timelines and any costs included or excluded from warranty and maintenance plans.

2-8 Training

GPMTD realizes that training is an essential component of a successful implementation. The vendor is required to provide comprehensive and complete training to all staff involved in the operation of the new technologies such as dispatch, Management, Information Technology, Drivers, and Maintenance. GPMTD has an onsite training area and prefers that training be conducted in their facility.

Training shall be conducted by Vendor personnel that are well versed with the technology. A detailed training plan should be provided to GPMTD. The plan should include on-site training that will allow for continued employee responsibilities. This plan should include training agendas describing who will be trained during each session and the length of each session. The plan should address the levels of training (i.e. end user, administrative, technical, power user, etc.).

The selected Vendor is required to provide training and user manuals as well as quick reference guides for all trainees. Bus operators should be provided with a laminated shirt pocket card with brief operational instructions. At least 4 hard copies of the training manuals and user guides should be provided for each software application.

The vendor should detail different training methods and approaches (i.e. classroom, train the trainer, one-on-one, web based, etc.). GPMTD would like the Vendor to recommend a training method and utilize GPMTD data during the training sessions.

2-9 Reporting, Data, Conversion, Security

GPMTD requires the selected Vendor to provide an agreed upon amount of customized (canned) reports. Canned reporting will be included with the total cost proposal and development of new reports will be covered under maintenance and warranty agreement. In addition to canned reports, an ad hoc reporting tool that allows GPMTD staff to pull specific data contained within the software system. Ad hoc reporting will allow data pulls by time, day, week, month, year, vehicle number, driver, passenger, route, and any other field that is contained within the software. Governmental reports including Federal Transit Authority (FTA), National Transit Database (NTD), and daily operational reports should be included. Example of reports would be:

- (A) Canned- Total ridership, by date or date span
- (B) Canned – Total mileage, by date or date span
- (C) Ad hoc – total mileage by a specific vehicle during date span

- (D) Ad hoc – Number of pickups at a specific stop between certain hours and certain days of the week
- (E) Ad hoc – drop-off totals sortable, by highest to lowest by date or date span

These are just examples and specific reports and needs will be determined at a later date.

2-10 System Testing and Acceptance

GPMTD will validate that the contractor has met all requirements stated in this RFP before accepting the systems. The Vendor is responsible for providing the labor and supervision for the installation and testing of the system. GPMTD will work with the selected Vendor to develop acceptance procedures to ensure the equipment is installed properly and functioning according to specifications and to complete system testing and acceptance. GPMTD requires the Vendor to develop and submit a series of testing plans and procedures two weeks before testing begins. Testing will begin only after GPMTD has signed off on the testing plans and procedures submitted by the vendor. A final system acceptance test is required after all system components are installed and operational.

The vendor is required to ensure that the system is functional and operational before scheduling acceptance testing or final acceptance with GPMTD personnel. GPMTD will formally accept the system upon the successful completion of the user acceptance testing. GPMTD will determine whether the system meets the standards as outlined in the contractual documents.

2-11 Software Upgrades

GPMTD expects that upgrades shall be available to allow them to take advantage of improvements in both software and hardware capabilities. The Vendor will provide at least 30 days advance notice of upgrades in the software and will continue to keep software up to date beyond any warranty or service agreement.

SECTION 3 – PROPOSAL SUBMISSION PROVISIONS

3-1 Postponement, Amendment and/or Cancellation of Request for Proposals

The GPMTD reserves the right to revise or amend any portion of this RFP prior to the date and time for the proposal delivery. Such revisions and amendments, if any, shall be issued through addenda to this RFP. Copies of such addenda and/or amendments shall be placed on the GPMTD website and will be furnished to the Proposer's email address submitted on the Contractors Registration Form. If the revisions or addenda require changes in requested information or the format for proposal submission, the established date for submission of proposals contained in this RFP may be postponed by such number of days as, in the GPMTD's opinion, shall enable Proposers adequate time to revise their proposals.

GPMTD reserves the right to cancel this RFP at any time or change the date and time for submitting proposals by announcing same prior to the date and time established for proposal submittal.

3-2 Rejection of Proposals

GPMTD reserves the right to reject any or all proposals and waive any minor informalities or irregularities.

3-3 Clarification of Proposals

The District reserves the right to obtain clarification of any point in a proposal or to obtain additional information necessary to properly evaluate a particular proposal. Failure of a Proposer to respond to such a request for additional information or clarification may result in the proposals' rejection.

3-4 Approved Equals

In all cases, services and materials must be furnished as specified. Where brand names or specific items are used in the specifications, consider the term "or approved equal" to follow.

Any unapproved deviations, exceptions, substitutions, alternates or conditional qualifications contained in a proposal may be cause for its rejection.

If potential proposers believe that their product is equal to the product specified, they must submit a written request to GPMTD on the provided form (Attachment D) and this request will be approved or rejected by GPMTD at least seven (7) calendar days prior to the due date of proposals. Requests for approved equals and clarification of specifications must be received by GPMTD in writing a minimum of fifteen (15) days before the proposal opening to allow analysis of the request.

Any request for an approved equal must be fully supported with catalog information, specifications and illustrations, or other pertinent information, as evidence that the substitute offered is equal to or better than the specification. Where an approved equal is requested, the Proposer must demonstrate the equality of this product to GPMTD to determine whether the Proposer's product is or is not equal to that specified.

3-5 Modification or Withdrawal of Proposals and Late Proposals

At any time before the time and date set for submittal of proposals, a Proposer may request to withdraw or modify its Proposal. Such a request must be made in writing by a person with authority as identified on the RFP Cover Page, provided their identity is made known and a receipt is signed for the proposal. All proposal modifications shall be made in writing executed and submitted in the same form and manner as the original proposal. Any proposal or modification of proposal received at GPMTD's office designated in the solicitation after the exact time specified for proposal receipt will not be considered.

Proposers will only be allowed to alter proposals after the submittal deadline in response to requests for clarifications or Best and Final Offers by GPMTD. GPMTD reserves the right to request an extension of the proposal period from a Proposer or Proposers.

GPMTD reserves the right to allow corrections or amendments to be made that are due to minor administrative errors or irregularities, such as errors in typing, transposition or similar administrative errors. Erasures or other changes or entries made by the proposer must be initialed by the person signing the proposal.

3-7 Compliance with RFP Terms and Attachments

GPMTD intends to award a Contract based on the terms, conditions, and attachments contained in this RFP. Proposers are strongly advised to not take any exceptions. Proposers shall submit proposals which respond to the requirements of the RFP. An exception is not a response to a RFP requirement. If an exception is taken, a "Notice of Exception" must be submitted with the proposal. The "Notice of Exception" must identify the specific point or points of exception and provide an alternative.

Proposers are cautioned that exceptions to the terms, conditions, and attachments may result in rejection of the proposal.

GPMTD may, at its sole discretion, determine that a proposal with a Notice of Exception merits evaluation. A proposal with a Notice of Exception not immediately rejected, may be evaluated, but its competitive scoring will be reduced to reflect the importance of the exception. Evaluation and negotiation will only continue with the Proposer if GPMTD determines that a Contract in the best interest of GPMTD may be achieved. The Notice of Exception will be used as part of GPMTD's evaluation of the proposal, and, therefore, must be made known during the course of the proposing process. Comments and exceptions substantially altering the form agreement will not be considered after conclusion of the bid process and the award of a contract. Failure to submit a marked-up copy of the form agreement with a bid proposal will be interpreted by GPMTD as the proposer's acceptance of the form agreement provided herein.

3-8 Collusion

The proposer guarantees that the proposal submitted is not a product of collusion with any other proposer, and no effort has been made to fix the proposal price of any proposer or to fix any overhead, profit, or cost element of any proposal price (Affidavit of Non-Collusion). Failure to submit the signed affidavit at the time of bid opening shall be grounds for disqualification of the proposer's offer.

If GPMTD determines that collusion has occurred among Proposers, none of the proposals from the participants in such collusion shall be considered. GPMTD's determination shall be final.

3-9 Pricing, Taxes and Effective Date

The price to be quoted in any proposal will include all items of labor, materials, tools, equipment, delivery and other costs necessary to fully meet the requirements of GPMTD. Any items omitted, which are clearly necessary for the completion of this project, will be considered a portion of such specifications, although not directly specified.

Price proposals shall include all freight charges, FOB to the designated delivery points.

GPMTD is exempt from payment of Federal, Excise and Transportation Tax, and the Illinois Sales, Excise and Use Tax. Proposers will not include these taxes in their proposed price(s). All other government taxes, duties, fees, licenses, permits, royalties, assessments, and charges shall be included in the proposed price.

In the event of a discrepancy between the unit price and the extended amount for a required item, the unit price will govern.

The price quoted by the proposing companies/firms will not change for a period of ninety (90) days, beginning from the date the proposal is opened.

3-10 Proposal Alternatives

Proposals shall address all requirements identified in this solicitation. In addition, GPMTD may consider proposal alternatives submitted by Proposers that provide enhancements beyond the RFP requirements. Proposal alternatives may be considered if deemed to be in GPMTD's best interests. Proposal alternatives must be clearly identified.

3-11 Single Proposal Response

If only one Proposal is received in response to the RFP, a sample of two (2) Proposals, if available, awarded to the Proposer within the past two (2) years may be requested of the single Proposer. A cost/price analysis and/or audit may be performed of the cost proposal in order to determine if the price is fair and reasonable.

3-12 Exclusionary or Discriminatory Specifications

GPMTD agrees that it will comply with the requirements of 49 U.S.C. Section 5323(h) (2) by refraining from using any Federal assistance awarded by the FTA to support procurements using exclusionary or discriminatory specifications. The award of this contract shall be made to the proposer whose proposal, in the opinion of GPMTD, best meets the established criteria listed herein.

4-5 Competitive Range

The competitive range is determined through a preliminary evaluation of proposals, which applies the evaluation criteria as set forth above. The groups remaining in the competitive range may be invited to participate in additional evaluations, testing, Best and Final Offer, or negotiations.

4-6 Negotiations

GPMTD may undertake concurrent negotiations with proposers determined to be within a competitive range. GPMTD does, however, reserve the right to award a contract based on the original proposal without any negotiations. The decision to award without negotiation may be made by GPMTD if, in the sole opinion of GPMTD, preliminary evaluation of the proposals received indicates that the best achievable and technically acceptable proposal has been received.

Concurrent negotiations with all proposers whose proposals are within the competitive range may be conducted by GPMTD. Negotiations may be entered into with one or more Proposers to finalize contract terms and conditions. In the event negotiations are not successful, GPMTD may initiate negotiations with the next ranking proposer or reject proposals.

Negotiation of a Contract will be in conformance with all applicable federal, state, and local laws, regulations, rules, and procedures. The objective of the negotiations will be to reach agreement on all provisions of the proposed Contract. The GPMTD may elect to submit a revised cost as part of the negotiation process based on current market values.

Upon completion of negotiations, the proposal that best meets the requirements of the RFP and ranks the highest evaluation score earned by its proposal based on the evaluation criteria shall be recommended to GPMTD's Board of Trustees as the successful proposer for award.

4-7 Contract Award

Contract award, if any, will be made by GPMTD to the responsible Proposer whose proposal best meets the requirements of the RFP, and will be the most advantageous to GPMTD with respect to operational plan, quality, and other factors as evaluated by GPMTD. GPMTD shall have no obligations until a Contract is signed between the Proposer and GPMTD.

Contract award will occur when GPMTD signs the Contract or issues a purchase order. No other act of GPMTD shall constitute Contract award. The Contract will establish the Contract value and incorporate the terms of this document, but will not be the authorization for Contractor to proceed.

4-8 Execution of Contract and Notice to Proceed

The Proposer to whom GPMTD intends to award the Contract shall sign the Contract and return it to GPMTD. Upon authorization by GPMTD's Board of Trustees, or designee, the Contract will be countersigned. Upon receipt by GPMTD of any required documentation and submittals by the Proposer, a Notice to Proceed may be issued, if appropriate.

4-9 Public Disclosure of Proposals

GPMTD is subject to the Illinois Freedom of Information Act. Therefore, the contents of this RFP and the Contractor's proposal submitted in response to this RFP shall be considered public documents and are subject to the Illinois FOIA statutes. As such, all proposals submitted to GPMTD will be available for inspection and copying by the public after the selection process has been concluded. There are, however, various items that may be exempt under public disclosure laws. If any proprietary, privileged, or confidential information or data is included in the Contractor's proposal, each page that contains this information or data should be marked as such (e.g., "Proprietary," "Confidential," "Business Secret," or "Competition Sensitive") in order to indicate your claims to an exemption provided in the Illinois FOIA. It is GPMTD's sole right and responsibility, however, to make the determination whether these items are exempt or not exempt under the Illinois FOIA statutes.

All data, documentation and innovations developed as a result of these contractual services shall become the property of GPMTD.

GPMTD is not party to defining the division of work between the Contractor and its Subcontractors, if any, and the Specifications and/or Scope of Services has not been written with this intent.

Contractor represents that it has or will obtain all duly licensed and qualified personnel and equipment required to perform hereunder. Contractor's performance under this Contract may be monitored and reviewed by a Procurement Administrator appointed by GPMTD. Reports and data required to be provided by Contractor shall be delivered to the Procurement Administrator. Questions by Contractor regarding interpretation of the terms, provisions, and requirements of this Contract shall be addressed to the Procurement Administrator for response.

5-2 Notification of Delay

GPMTD's Procurement Administrator will notify Contractor of the decision in writing. It is expressly understood and agreed that Contractor will not be entitled to damages or compensation, and will not be reimbursed for losses on account of delays resulting from any cause under this provision.

5-4 Contract Changes

Any proposed change in the contract will be submitted to GPMTD for its prior written approval and GPMTD will make the change by a Change Order if agreed upon by both parties in writing. Each written Change Order will expressly include any change in the Contract price or delivery schedule. Any action on the part of Contractor taken in compliance with such instructions will not be grounds for subsequent payment or other consideration in compliance with the unauthorized change.

5-6 Cost or Price Analysis

GPMTD reserves the right to conduct a cost or price analysis for any purchase. GPMTD may be required to perform a cost analysis when competition is lacking for any purchase. Sole source procurements which result in a single Bid being received will be subject to a cost analysis which will include the appropriate verification of cost data, the evaluation of specific elements of costs and the projection of data to determine the effect on Bid prices. GPMTD may require a Pre-Award Audit and potential Contractors shall be prepared to submit data relevant to the proposed work which will allow GPMTD to sufficiently determine that the proposed price is fair, reasonable, and in accordance with Federal, State and local regulations. Procurements resulting in a single Bid will be treated as a negotiated procurement and GPMTD reserves the right to negotiate with the single Proposer to achieve a fair and reasonable price. If a negotiated price cannot be agreed upon by both parties, GPMTD reserves the right to reject the single Bid. Contract change orders or modifications will be subject to a cost analysis.

5-7 Lack of Funds

If expected or actual funding is withdrawn, reduced, or limited in any way prior to the expiration date set forth in this Contract or in any amendment hereto, GPMTD may, upon written notice to Contractor, terminate this Contract in whole or in part. Such termination shall be in accordance with GPMTD's rights to terminate for convenience or default.

5-8 Force Majeure

The timely receipt of GPMTD's requirements is essential. If the requirements are not received on time in accordance with the delivery schedule, GPMTD may cancel the unfilled portion of the contract for cause, purchase substitute requirements elsewhere, and recover from Contractor any increased costs, thereby incurred together with all resulting incidental and consequential damages. GPMTD may also terminate for cause, purchase substitute requirements elsewhere and recover costs and damages for breach of Contractor obligations.

The Contractor shall be entitled to a reasonable extension of time from GPMTD for the delays caused by damage to Contractor's and/or GPMTD's property caused by fire, lightning, earthquakes, tornadoes, and other extreme weather conditions or acts of nature, power failures, riots, acts of civil or military authorities of competent jurisdiction, strikes, lockouts, and any other industrial, civil or public disturbances beyond the control of the Contractor and its subcontractors causing the inability to perform the requirements of this Contract. Any delay other than ones mentioned above shall constitute a breach of Contractor's contractual obligations.

5-9 Taxes, Licenses, Laws, and Certificate Requirements

Contractor shall maintain and be liable for all taxes, fees, licenses, and costs as may be required by federal, state, and local laws, rules, and regulations for the conduct of business by Contractor and any subcontractors and shall secure and at all times maintain any and all such valid licenses and permits as may be required to provide the services or supplies under this Contract. If for any reason, Contractor's required licenses or certificates are terminated, suspended, revoked, lapsed, or in any manner modified from their status at the time this Contract becomes effective, Contractor shall immediately notify GPMTD in writing of such condition.

Contractor will give all notices and comply with all federal, state, local and GPMTD laws, ordinances, rules, regulations, standards, and orders of any public authority bearing on the performance of the Contract, including, but not limited to, the laws referred to in these General Provisions of the Contract and the other Contract Documents. If the Contract Documents are at variance therewith in any respect, any necessary changes shall be adjusted by appropriate modification. Omission of any applicable laws, ordinances, rules, regulations, standards or orders by GPMTD in the Contract Documents shall be construed as an oversight and shall not relieve the Contractor from his obligations to meet such fully and completely. Upon request, Contractor shall furnish to GPMTD certificates of compliance with all such laws, orders and regulations. Contractor shall be responsible for obtaining all necessary permits and licenses required for performance under the Contract.

Applicable provisions of all federal, state, and local laws, and of all ordinances, rules, and regulations shall govern any and all claims and disputes which may arise between person(s) submitting a Bid response hereto and GPMTD, by and through its officers, employees and authorized representatives, or any other persons, natural and otherwise, and lack of knowledge by any Contractor shall not constitute a cognizable defense against the legal effect thereof.

Within seven (7) calendar days of receiving such written notification, Contractor must supply GPMTD with a written detailed plan which indicates the time and methods needed to bring the work, materials, or services within acceptable limits of the Contract. GPMTD may reject or accept this plan at its discretion. In the event this plan is rejected, the work, materials, or services will be deemed not accepted and returned to Contractor at Contractor's expense. This procedure to remedy defects is not intended to limit or preclude any other remedies available to GPMTD by law, including those available under the Uniform Commercial Code.

5-11 Assignment

Contractor shall not assign any interest, obligation, or benefit under or in this Contract or transfer any interest in the same, whether by assignment or notation, without the prior written consent of GPMTD. If an assignment is approved, this Contract shall be binding upon and inure to the benefit of the successors of Contractor. This provision shall not prevent Contractor from pledging any proceeds from this Contract as security to a lender. An assignment may be conditioned upon the posting of bonds, securities and the like by the assignee and the assignee must assume the written Contract and be responsible for the obligations and liabilities of Contractor, known and unknown, under this Contract and applicable law.

GPMTD may assign its rights and obligations under the Contract to any successor to the rights and functions of GPMTD or to any governmental agency to the extent required by applicable laws or governmental regulations, or to the extent GPMTD deems necessary or advisable under the circumstances.

8-5 Termination Provisions

- a. **Termination for Convenience (General Provision)** The GPMTD may terminate this contract, in whole or in part, at any time by written notice to the Contractor when it is in the Government's best interest. The Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. The Contractor shall promptly submit its termination claim to GPMTD to be paid the Contractor. If the Contractor has any property in its possession belonging to the GPMTD, the Contractor will account for the same, and dispose of it in the manner the GPMTD directs.

Termination shall be effected by serving a notice of termination on the contractor setting forth the manner in which the Contractor is in default. The contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract.

If it is later determined by the GPMTD that the Contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of the Contractor, the GPMTD, after setting up a new delivery of performance schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

- c. **Opportunity to Cure (General Provision)** The GPMTD in its sole discretion may, in the case of a termination for breach or default, allow the Contractor 10 business days in which to cure the defect. In such case, the notice of termination will state the time period in which cure is permitted and other appropriate conditions

If Contractor fails to remedy to GPMTD's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by Contractor of written notice from GPMTD setting forth the nature of said breach or default, GPMTD shall have the right to terminate the Contract without any further obligation to Contractor. - d. **Waiver of Remedies for any Breach** In the event that GPMTD elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this Contract, such waiver by GPMTD shall not limit GPMTD's remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.
- e. **Termination for Convenience of Default (Cost-Type Contracts)** The GPMTD may terminate this contract, or any portion of it, by serving a notice or termination on the Contractor. ATTACHMENT I – Good Faith Effort
(For information only – not to be returned)

1. The GPMTD has established a ten percent (10.0%) goal for Disadvantaged Business Enterprise (DBE) participation for this contract. Therefore, a proposer must, in order to be responsible and responsive, make a good-faith effort to meet the goal. The proposer can meet this requirement in either of two (2) ways. First, the proposer can meet or exceed the goal, documenting commitments for participation by DBE firms sufficient for this purpose. Second, even if the proposer doesn't meet the goal, the proposer can document its good-faith efforts to meet the goal. This means that the proposer must show that it took all necessary and reasonable steps to achieve the DBE goal, or other requirement of this part which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.
2. The GPMTD will use the good-faith efforts mechanism as required by 49 CRF part 26. It is up to the GPMTD to make a fair and reasonable judgment whether a proposer that did not meet the goal made adequate good-faith efforts. The GPMTD will consider the quality, quantity, and intensity of the different kinds of efforts that the proposer made. The efforts employed by the proposer should be those that one could reasonably expect a proposer to take, if the proposer were actively and aggressively trying to obtain DBE participation sufficient to meet the DBE contract goal. Mere pro forma efforts are not good-faith efforts to meet the DBE contract requirements. As emphasized by the Department of Transportation, GPMTD's determination concerning the sufficiency of the firm's good-faith efforts is a judgment call; meeting quantitative formulas is not required.
3. The GPMTD will not require that a proposer meet a contract goal (i.e., obtain a specified amount of DBE participation) in order to be awarded a contract, even though the proposer shows that an adequate good-faith was made. The rule specifically prohibits the GPMTD from ignoring bona fide good-faith efforts.
4. The following is a list of types of actions that the GPMTD will consider as part of the proposer's good-faith efforts to obtain DBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.
 - a. Soliciting through all reasonable and available means (e.g. attendance at pre-proposal meetings, advertising, and/or written notices) the interest of all certified DBEs who have the capability to perform the work of the contract. The proposer must solicit this interest within sufficient time to allow the DBEs to respond to the solicitation. The proposer must determine with certainty whether or not a DBE is certified.
 - b. The DBEs are interested by taking appropriate steps to follow up initial solicitations.
 - c. Selecting portions of the work to be performed by DBEs in order to increase the likelihood that the DBE goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate DBE participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces.
 - d. Providing interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.

ATTACHMENT I – Good-Faith Effort (Continued)

- e. Negotiating in good-faith with interested DBEs. It is the proposer's responsibility to make a portion of the work available to DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for DBEs to perform the work.

A proposer using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE subcontractors, and would take a firm's price and capabilities, as well as contract goals, into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is not in itself sufficient reason for a proposer's failure to meet the contract DBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the proposer of the responsibility to make good-faith efforts. Prime contractors are not, however, required to accept higher quotes from DBEs, if the price difference is excessive or unreasonable.

- f. Not rejecting DBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The Contractor's standing within its industry, membership in specific groups, organizations, or associations, and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of proposals from DBEs in the Contractor's efforts to meet the project goal.
- g. Making efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance, as required by the recipient or contractor.
- h. Making efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.
- i. Effectively using the services of available minority/women community organizations; minority/women contractors' groups; Federal, State, and Local minority/women business assistance offices; and other organizations, as allowed on a case-by-case basis, to provide assistance in the recruitment and placement of DBEs.
